

Journal of Pediatric Infection

Çocuk Enfeksiyon Dergisi

Editorial

We are happy to present you the 1st issue of the year 2017 of the *Journal of Pediatric Infection (Cocuk Enfeksiyon Dergisi)*, which is the media organ of the Society of Pediatric Infectious Diseases.

Indexed by CAB Abstracts, CINAHL, DOAJ, EBSCO, EMBASE, GALE, Global Health, HINARI, Index Copernicus, ProQuest, Scopus, Web of Science-Emerging Sources Citation Index, TÜBİTAK ULAKBİM TR Dizin, and Türkiye Atıf Dizini databases, the Journal of Pediatric Infection is now stepping into its 11th publishing life with this issue...

Along the 10 years we have left behind, we, on behalf of our journal and society, owe our thanks to Prof. Dr. Mustafa Hacımustafoğlu who has carried out the editor-in-chief position with utmost devotion and success and has labored to carry the *Journal of Pediatric Infection* into these days, to editor, co-editors and authors of our journal, and to the directors and employees of Publisher that has undertaken the publishing of the Journal of Pediatric Infection.

The Journal of Pediatric Infection, will henceforth maintain its life as a quarterly printed publication and an open-access internet journal. As it is known, all volumes of the Journal of Pediatric Infection can be accessed from the following website: www.cocukenfeksiyondergisi.org.

The manuscripts sent through online publication submission system for publication are reviewed by independent reviewers after a fast preliminary evaluation period, and accepted to publication if found suitable. We will be expecting your case reports and original research papers to be published in our journal.

The Society of Pediatric Infectious Diseases (www.cocukenfeksiyondernegi.org) continues its scientific meetings, symposiums and congresses alongside the publishing of the *Journal of Pediatric Infection*. The last of the national congresses our Society has organized biannually until 2017 is identified as "10th National Pediatric Diseases Congress, April 5-9, 2017, Maxx Royal, Belek, Antalya". The congresses of our society will be held annually as of 2017.

The *Journal of Pediatric Infection* will be published by Bilimsel Tıp Publishing House as of 2017. With the cooperation of our new Publisher, we are at a time-consuming process of reconfiguring and renovating the internet websites of our society and journal, with the aim of achieving more functional systems. In the meantime, we have already commenced our preparations for the "11th National Pediatric Diseases Congress, April 4-8, 2018, Maxx Royal, Belek, Antalya". Therefore, we wish for your kind understanding for any failure and problems that could arise in the publishing of our journal and on our internet websites.

Looking forward to meeting you in our next issue.

Sincerely,

Emin Sami Arısoy/Ateş Kara

Editors-in-chief

**The Journal of Pediatric Infection
